Updates will be provided to Members by Market Notices.

Clearing and Settlement of trades in instruments belonging to the trading segment "UK" concluded in the Hybrid Book or in PartnerEx (for which both parties have agreed to use the designated clearing system for the instruments concerned) of the electronic trading system on Börse Berlin shall be performed by the external clearing system of LCH.Clearnet Ltd, acting as central counterparty.

Clearing may also be performed by SIX x-clear or EuroCCP, acting in their role as central counterparty. Clearing may be performed by SIX x-clear or EuroCCP where the parties to a trade are not connected to the same post-trade system (interoperability).

b. Trading segments "France" "Belgium" "Netherlands" "Portugal"

The following instruments will be included into the trading segment "France":

Updates will be provided to Members by Market Notices.

Clearing and Settlement of trades in instruments belonging to the trading segments “France” “Belgium” “Netherlands” and “Portugal” concluded in the Hybrid Book or in PartnerEx (for which both parties have agreed to use the designated clearing system for the instruments concerned) of the electronic trading system on Börse Berlin shall be performed by the external clearing system of LCH.Clearnet S.A., acting as central counterparty.

Clearing may also be performed by LCH Ltd., SIX x-clear or EuroCCP, acting in their role as central counterparty. Clearing may be performed by LCH Ltd., SIX x-clear or EuroCCP where the parties to a trade are not connected to the same post-trade system (interoperability).

c. Trading segments “Germany” and “Switzerland”

The following instruments will be included into the trading segment “Germany”:

Updates will be provided to Members by Market Notices.

Clearing and Settlement of trades in instruments belonging to the trading segments “Germany” and “Switzerland” concluded in the Hybrid Book or in PartnerEx (for which both parties have agreed to use the designated clearing system for the instruments concerned) of the electronic trading system on Börse Berlin shall be performed by the external clearing system of SIX x-clear AG, acting as central counterparty.

Clearing may also be performed by LCH Ltd., SIX x-clear or EuroCCP, acting in their role as central counterparty. Clearing may be performed by LCH Ltd., SIX x-clear or EuroCCP where the parties to a trade are not connected to the same post-trade system (interoperability).

d. Trading segment “Italy”

Updates will be provided to Members by Market Notices.

Clearing and Settlement of trades in instruments belonging to the trading segments "Italy" concluded in the Hybrid Book or in the PartnerEx (for which both parties have agreed to use the designated clearing system for the instruments concerned) of the electronic trading system on Börse Berlin shall be performed by the external clearing system of LCH Ltd., acting as central counterparty.

Clearing may also be performed by SIX x-clear or EuroCCP, acting in their role as central counterparty. Clearing may be performed by LCH Ltd., SIX x-clear or EuroCCP where the parties to a trade are not connected to the same post-trade system (interoperability).

Chapter III. Admission to trading in specific trading segments

To ensure clearing and settlement of trades concluded in electronic trading Equiduct on Börse Berlin, the Management Board stipulates:

1. Clearing and settlement links

Admission to participate in Electronic Trading in the Hybrid Book requires the participant to have all necessary clearing and settlement arrangements to ensure orderly clearing and settlement of trades concluded on Börse Berlin.

For participation in the Hybrid Book, or in PartnerEx (for which both parties have agreed to use the designated clearing system for the instruments concerned) every participant has to ensure that either he himself is clearing member of the relevant external clearing system pursuant to Chapter II, 1 to 4 above or that he has access to the relevant clearing system through another clearing member. The legal relationship between the clearing member and the external clearing system or the trading participant having direct or indirect access through another clearing member and the external clearing system solely shall be governed by the rules of the external clearing system. A participant not able to provide evidence of either direct or indirect access to the relevant external clearing system pursuant to Chapter II, 1 to 4 above will not be admitted to the use of the electronic trading system for the instruments concerned or will be excluded thereof.

Trades sent to the external clearing system will be subject to the standard settlement cycle applied by the Central Securities Depository or the International Central Securities Depository instructed by the relevant external clearing system for the instruments concerned.

2. Suspension, Revocation, Withdrawal

In case of a justified suspicion that the access of a participant to the relevant external clearing system pursuant to Chapter II, 1 to 4 above did not exist or ceases to exist or will cease to exist, the Management Board may order the suspension of the admission of the participant to the electronic trading system for a maximum period of six months.

The Management Board may withdraw the admission to the electronic trading system if access to the relevant external clearing system pursuant to Chapter II, 1 to 4 above did not exist at the time admission was granted. It may revoke the admission if the access ceases to exist later.

The Management Board has the non-transferable right to temporarily or permanently:

- (1) exclude a company admitted to trading from electronic trading if it violates the regulations determined for electronic trading or if it endangers the safety of trading or clearing or of the electronic trading system or
- (2) exclude a company admitted to trading from participation in the trading of instruments that are traded and settled in a foreign currency or unit of account, if it violates the rules determined for this or if it endangers the safety of trading.

3. Cooperation between the external clearing system and Börse Berlin

The relevant external clearing system and Börse Berlin keep one another informed on circumstances that might endanger orderly clearing and settlement.

4. External clearing system rules

Where an external clearing system has accepted a trade concluded in the electronic trading system for clearing and settlement, the relationship between the participant and the central counterparty shall be governed exclusively by the rules of the external clearing system.

If one or more clearing members do not or not fully fulfill their obligation to deliver, the external clearing system may partially deliver to one or more entitled clearing members.

5. Use of data

Data and information sent by the electronic trading system to the external clearing system may only be used by the external clearing system and its participants for purposes of clearing and settling trades executed on Börse Berlin electronic trading system. Such data or information may only be forwarded to third parties upon approval of the Management Board. This does not apply in case of a duty to pass data or information on the basis of a law, an ordinance or an order either by an administrative authority or a court.

6. PartnerEx

The Management Board may upon request allow other clearing and settlement solutions for trades in PartnerEx, so long as orderly clearing and settlement are ensured.

Chapter IV. LCH.Cleernet Ltd, in its role as external clearing system

The following rules apply to trades that are to be cleared and settled through LCH.Cleernet Ltd. In case of conflict between the following rules and LCH.Cleernet Ltd rules, LCH.Cleernet Ltd rules will prevail.

1. Open offer

The clearing model supported by LCH.Cleernet Ltd is an open offer.

Where a central counterparty contract arises between a General Clearing Member and a central counterparty, another contract shall arise between the Non Clearing Member (either as agent or principal) and the General Clearing Member (as principal) which shall be on the same terms as the central counterparty contract except that:

if the General Clearing Member is seller it will be a buyer in the resulting contract; and

if the General Clearing Member is buyer it will be a seller in the resulting contract.

If LCH.Cleernet Ltd, in accordance with its rules, gives notice to Börse Berlin of its intention to cease registering central counterparty trades, no contract for this central counterparty shall arise from the point that registration is suspended.

2. Settlement netting

LCH.Clearnet Ltd rules will apply to the trades executed by a trading participant who participates through his clearing member in the netting services as organized by the external clearing system. Trading participants acting as agent shall ensure that their clients agree to the settlement netting rules as applied.

3. Stamp Duty

For all transactions sent from the electronic trading system to the external clearing system, the stamp duty reserve tax relief will be applied upon proper certification in the settlement process at Euroclear UK and Ireland.

4. Place of settlement

Trades cleared by LCH.Clearnet Ltd are expected to be settled in Euroclear UK and Ireland, unless specified differently.

5. Trade cancellations, Trade rejections

If the trade is not eligible for central counterparty processing according to the rules of LCH.Clearnet Ltd and is rejected straight away by LCH.Clearnet Ltd, then the trade will be cancelled by Börse Berlin.

If the trade is rejected by LCH.Clearnet Ltd after having been accepted, then this trade will be deemed as not having taken place on Börse Berlin.

If a trade is cancelled by Börse Berlin, a trade cancellation will be sent to LCH.Clearnet Ltd for processing.

6. Failure to settle

Where a trade may not be settled due to law, ordinance or administrative or court order or due to insolvency proceedings on the issuer of an instrument or any other reason, the buy-in rules and cash compensation rules of LCH.Clearnet Ltd, apply. Without affecting a member's responsibility for settlement of all trades entered into by it, the failure to deliver instruments or pay on the due date for settlement shall not in itself be grounds for treating the trades as repudiated and time shall not be of the essence.

7. Dividend payments

The buyer is entitled to the dividend if the trade is executed before ex date.

A trade executed on or after ex date will be settled ex dividend.

Dividends shall be paid in the same currency as paid by the issuer and as set up by Euroclear UK and Ireland, unless otherwise directed by LCH.Clearnet Ltd. Dividends with alternatives (e.g. scrip dividends and currency election dividends) cannot be opted by the buyer as per LCH.Clearnet Ltd rules.

8. Subscription rights

The buyer is entitled the rights when a trade is executed cum rights.

Where the selling member fails to deliver nil paid rights by the last time for delivery as detailed in the rules of LCH.Clearnet Ltd, unless a lapsing instruction has been provided via CREST, the seller is obliged to take up the rights on the buyer's behalf. The buyer is required to compensate the seller for the call payment made against the delivery of fully paid rights as required.

9. Other Corporate Events

Elective Corporate Events

Buyer election instructions must be provided via CREST in the timelines specified in the relevant current version of the LCH.Clearnet Ltd rules for them to be accepted by LCH.Clearnet Ltd. Where a selling member receives a buyer election they are bound by the election and are required to deliver the relevant option chosen by the buyer. Where a buyer does not provide instructions with regard to an elective Corporate Event through CREST then they will receive the "default option" as in-put by CREST.

Mandatory Corporate Events

A seller who would fail to deliver the underlying shares to the buyer, is required to deliver the relevant outturn to the buyer.
